### PROFESSIONAL SUMMARY:

As a developer, I thrive on transforming concepts into compelling digital experiences, leveraging expertise in HTML, CSS, JavaScript, React, Node.js, and embracing new technologies with enthusiasm. My commitment to continuous learning fuels my ability to innovate and adapt in a fast-evolving industry. I excel in collaborating with teams to deliver custom, high-quality solutions that exceed client expectations. My strong communication skills ensure effective dialogue within teams and with clients, facilitating a productive and positive work environment.

### SKILLS:

**Language:** Javascript, Typescript, C#, Kotlin    **Back-end:** Node.js, Express, restAPI  
**Front-end:** HTML, CSS, React, tailwindCSS    **Database:** MySQL, Mongoddb

### EDUCATION:

**2021 - present (Graduating June 2024) | University of Tasmania**

Bachelor of Information and Communication Technology - Computer Science

### RELEVANT PROJECTS:

**TASTest dashboard**    Full Stack Developer / Client Corperator

As part of an agile quartet, I significantly influenced the development of a dashboard application for researchers to effortlessly navigate and manage database content, along with facilitating dynamic database structure alterations.

Key Contributions:

- Pioneered a tiered user management system, assigning database permissions based on user roles for enhanced security and efficiency.
- Directed the creation of the frontend interface, improving user engagement and operational effectiveness.

Technology Adaptation:

- Addressed the Spring Boot limitations by transitioning to the Express framework, enhancing our ability to modify database structures dynamically.
- Swiftly integrated and optimized the new framework, ensuring robust backend functionality and project flexibility.

Teamwork and Client Engagement:

- Led team coordination and client relations, aligning project outcomes with client expectations and effectively communicating progress.
- Managed bi-weekly client meetings, driving project direction through strategic discussions, and converting discussions into team actions for continuous improvement."

Tech Stack Involved

- Backend: Node.js, Express, typescript, jwttoken, restAPI
- Frontend: React, javascript, antd
- Database: MySQL

## WORK EXPERIENCE:

### **Fuzhou Limtex Garment Co. Ltd**

Garment Export Coordinator / Project Manager | March, 2016 - Dec, 2021

- Style Development and Sample Management
- Enquiry and quoting
- Production and Client Management
- Logistics and Documentation
