## PROFESSIONAL SUMMARY:

I am an IT student at the University of Tasmania (UTAS) set to graduate in June. With hands-on experience in web and mobile application development, I am actively seeking job and internship opportunities in software development. Eager to expand my skills, I am passionate about embracing new technologies and enhancing my proficiency in the field.

## EDUCATION:

**2021 - present (Graduating June 2024) | University of Tasmania**

Bachelor of Information and Communication Technology - Computer Science

## RELEVANT EXPERIENCE:

**TAS Test dashboard** Full Stack Developer / Client Corperator

### Project Overview:

I played a pivotal role in an agile team, developing a dynamic dashboard application for researchers to efficiently manage and modify database structures.

### Key Contributions:

- Designed and implemented a tiered user management system, significantly enhancing database security and operational efficiency.
- Spearheaded the frontend development, improving user interface and engagement.

### Technology Adaptation:

- Led the migration from Spring Boot to the Express framework to better support dynamic database modifications, ensuring enhanced project flexibility and robust backend functionality.

### Teamwork and Client Engagement:

- Directed team efforts and maintained active client communication, aligning project goals with client needs.
- Organized and managed bi-weekly client meetings to drive the project's strategic direction and facilitate continuous improvement.

## SKILLS:

**Web Development:** Javascript, Typescript, React, Express.js, node.js, tailwind CSS

**App Development:** kotlin, jetpack compose

**Database:** MySQL, MongoDB
